

ARRIVING SPRING 2011

With over 120 hand-drawn illustrations and example images from professional engraving artist Lee Griffiths, this book is full of solid design advice, to-the-point guidelines, and pages of notes that will help engravers, jewelers, artists, and other craftsmen learn to draw better. Topics include designing with a budget, negative and positive space, using multiple scrolls in a design, overlapping and interlocking elements, borders, leaves, flowers, shading, and folds.

Get more from Lee's book *Art & Design Fundamentals* with this comprehensive video. Easily follow along with each chapter as Lee draws examples from the book while you watch. This video is a perfect companion to the printed word and great for those who learn better from visual demonstrations.
