

Chapter 8: Know When To Fold 'Em

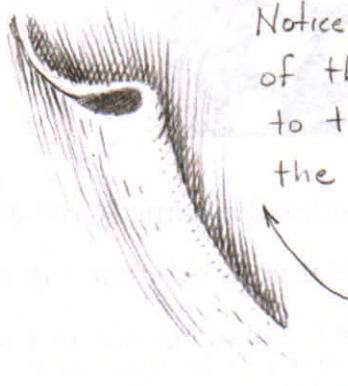

Left, Right, or Straight Up

A great way to put a little form and life into your design is by incorporating some folds into the leaves. Folds are like people: they come in all shapes and sizes. When viewed, some folds are in the middle, others to the left, and the rest to the right.

Fold to the right.

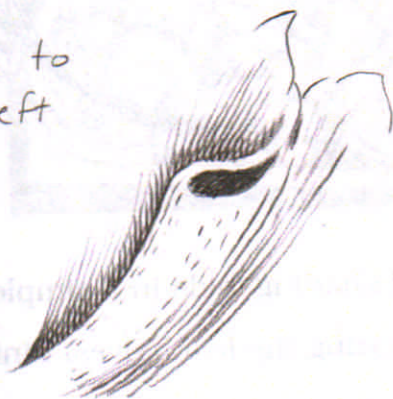

Notice that the movement of the fold from bottom to top can curve in from the right or the left.

Fold in the middle

Fold to the left

Shade lines do not have to be continuous lines.
